

Terrestrial optical fiber receiver

POWER SUPPLY

Terrestrial optical fiber receiver

MODEL		FRD-110
REF.		4872
Frequency range	MHz	45 - 862
Optical wavelength	nm	1300 - 1560
Output level	dB μ V	Input level 0 dBm \geq 94 Input level -3 dBm \geq 88 Input level -6 dBm \geq 82 Input level -9 dBm \geq 76
CNR (DVB-T signals) for output level	dB	50
Coaxial connector		F
Optical connectors		SC/APC
Optical window	dBm	-13 ... +1
Output attenuation	dB	0 ... 20
Optical level indicator		Yes
Consumption (12V)	W	2
Power supply	VDC	12
Dimensions	mm	130 x 75 x 30

Application in the fiber optic distribution of DTT signals in single family residential and collective installations.

Application example
