## Active splitter

Fully weatherproof, the FSA-401 4 way active splitter is designed to increase the capacity of new or existing ODU-32 systems.

With 4 x ODU-32 connected a total of 256 dwellings can be fed from a single headend. The splitter is powered by one of the ODU-32 units connect-ed on any of it's outputs.

- Equally splits Wholeband input to 4 outputs
- Fully weatherproof (IP65)
- Built-in slope compensation

## Wholeband active splitter

MODEL		FSA-401	
REF.		4962	
Frequency range	GHz	0.95 - 5.45	
Number of outputs		4	
Nominal gain	0.95 - 3.0 GHz 3.4 - 5.45 GHz	0dB ±1dB 0 to 1dB ±1dB	
Return loss	dB	9	
Gain flatness	V pol H pol	dB	2 3
Noise figure	dB	22	
Connectors		N 50 Ω	
Distribution loss	dB	0	

### Application example
