

Apartament amplifiers ATP-190 series

Models for terrestrial and satellite signals, adapted to the 2nd Digital Dividend.

Designed for installations with satellite signal

Models adapted to the 1st and 2nd Digital Dividend

Using passive return

Main features

- Models adapted to the 1st and 2nd Digital Dividend.
- Terrestrial and satellite outputs.
- Gain adjustment potentiometers.
- Return path.
- DC transit.

MODEL	REF.	ATP-190 series	
ATP-190-C69	3588	Frequencies MHz	47 - 862
ATP-190-C60	3589		47 - 790
ATP-190-C48	3590		47 - 694
Input			1
Output			1
Gain	dB	Terr: >18	Sat: >22
Gain adjustment	dB	Terr: >10	-
Output level	dBµV	Terr: 106 IMD3 -60dB (DIN 45004B)	Sat: 112 IMD3 -35dB (EN 50083-3)
Return path frequency	MHz	5 - 30	
Noise figure	dB	<5	<6
Mains supply voltage	VAC	100 - 240	
DC transit	mA	500	
Consumption	W	<3	
Dimensions	mm	135 x70 x 30	

Installation example

Quick Fix & Release bracket
