FLASHD NANO

ANTENAS DE RECEPCIÓN TV UHF COMPACTAS
ANTENNES DE RÉCEPTION TV UHF COMPACTS
COMPACTS UHF TV RECEIVING ANTENNAS

Flashd NANO LTE (HDTN790V) Ref. 1813
Flashd NANO (HDT511V) Ref. 1800

V = Verde / Vert / Green

1813

1800

Características Técnicas / Données Techniques / Technical Data

— Modelos / Modèles / Models :

Flashd NANO (HDT511V) ▶21-69 (470-862 MHz)
Flashd NANO LTE (HDTN790V) ▶21-60 (470-790 MHz)

— Relación D/A / Rapport AV/AR / Front-to-Back ratio : ≥16 dB

— Ángulo de apertura / Angle d'ouverture / Beamwidth : 60° (H) ; 80° (V)

— Carga del viento / Charge au vent / Windload : 15 N (130 km/h) ; 20 N (150 km/h)

— Ganancia / Gain :

1. Preparación de la antena / Préparation de l'antenne / Preparing the antenna

1.1) Colocación del reflector / Installation du réflecteur / Installing the reflector
